PROJECTS

- | | |
|--|---|
| Real Estate Price Prediction for Bangalore, India | link |
| Developed an end-to-end machine learning model to predict property prices in Bangalore, India, based on location, size, and square footage. This project was implemented in Python within a Jupyter Notebook environment, using libraries like Pandas, Scikit-learn, Matplotlib, and Seaborn for data processing, model building, and visualization. | |
| Personal Portfolio Website | view link |
| Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects and skills. Implemented interactive features with JavaScript to enhance user experience, including smooth navigation and dynamic content updates. | |
